

## **Unit 1 Test Review**

**Answer these questions by going through your classwork and handouts.**

What is perspective? What is bias? (Look to September 11<sup>th</sup> and 12<sup>th</sup> – our first days in class)

How do places affect people in 2017? Create a list of ways based on what we covered in activities in class

Where were the earliest humans found? (look for focus questions about early humans)

What was the geography there and how did it affect them?

What are unique characteristics that humans possess? How did it affect their evolution? (look for the handout of the outline of the person and the readings you did connected to that)

How was fire used by humans as a tool to shape the area around them?

Where did humans migrate and why did they move? (look for focus questions about migrations and moving out of Africa, along with your map.)

Define the Neolithic revolution

Define patriarchy and give one present day example.

How did the Neolithic revolution lead to patriarchy?

What are three other ways that the Neolithic Revolution changed human life? How was life different for them than from the hunter gatherers before them? (Look for the cartoon and the Jared Diamond reading)

Why did class differences develop after the Neolithic Revolution (why were some people higher class and some people now lower class?)
